

GOUTOS LINES

We will fight COVID-19 together!

GOUTOS LINES with a high sense of responsibility has taken all appropriate and necessary measures to minimize, reduce dispersion and manage a suspected case at sea of the disease of the new Covid-19 Coronavirus strain.

Always prioritized the safety and health of passengers and crew members, it has developed and implemented a comprehensive Management Plan for the prevention and treatment of Coronavirus COVID-19 on board according to directives of the National Public Health Organization (EODY), the World Health Organization (WHO), the International Maritime Chamber (ICS), the International Maritime Health Association (IMHA), the European Centre for Disease Prevention and Disease Prevention (ECDC) and the EU Healthy Gateways European Joint Action.

The company has set up a Special Task Force Covid-19 within the company and on board, which are constantly trained for the evolution of the pandemic as well as for the timely identification of the symptoms of the new Covid-19 Coronavirus and have received clear instructions in case of an on-board case for the appropriate measures to protect the occupants, crews and ground staff. The Covid-19 Task Force (Task Force Covid-19) is constantly updated and cooperates with the National Public Health Organization and all the competent authorities of the country to take appropriate measures to protect passengers, crews and ground staff.

All appropriate prevention and protection measures as required have been secured for our vessel.

These measures are:-

- The enhanced cleaning of the vessel with mild disinfectants according to the special instructions of the EODY, as well as its regular disinfection by specialized certified workshops. Frequent cleaning and disinfection of surfaces of frequent uses such as door knobs, handles, taps, handrails, etc. and air conditioning units with the products indicated by the authorities
- Frequent natural ventilation in all areas of the ship
- Instructions to crew members to maintain the social distance and avoid confounding crew, crew-passengers and passengers with each other on board, the application of personal protective equipment for themselves and for passengers, the meticulous observance of proper respiratory hygiene, and compliance with hygiene measures by all occupants.
- It applies the Pre-Boarding Health Declaration Questionnaire for the purpose of detecting passengers in case they have been exposed to the new Covid-19 Koronioio as part of the implementation of passenger boarding control measures, and clear instructions have been given for the management of a suspicious case on board.
- It has equipped the ship with sufficient medical supplies and equipment to deal with cases as required by law.

At **GOUTOS LINES** we make sure that your trip is safe. We are taking all necessary measures to protect each other.

Thank you for helping us secure your health.
